CCP, PFA join hands to protect consumers, ensure fair competition

The Competition Commission of Pakistan (CCP) and the Punjab Food Authority (PFA) inked an Memorandum of Understanding (MoU) to enhance co-operation to deter deceptive marketing and improve consumer protection in matters related to food products claims and labelling. The MoU signing ceremony, held at the head office of the Directorate General Punjab Food Authority (PFA) on Tuesday was officiated by Salman Amin, Member CCP, and Asim Javaid, Director General PFA.

At the signing ceremony, Member CCP highlighted the expertise of both organisations and how they can collaborate under their respective legal frameworks. He emphasised that the Office of Fair Trade and the Marketing Intelligence Unit at CCP play a key role in preventing deceptive marketing and false claims by businesses. These units ensure that product claims are backed by credible evidence. He further stated that PFA's technical facilities and established standards will support this effort, benefiting consumers and promoting fair competition. It was also discussed that PFA's testing facilities will assist CCP in verifying claims made by businesses in the food and beverage industry during legal proceedings.

The additional director general of PFA briefed attendees about PFA's regional offices across the provinces and its expertise in the technical analysis of food products. He also outlined the formal procedures established by PFA for the approval of food product labels. The MoU will strengthen both organisations by facilitating collaboration on matters of mutual interest. It aims to promote efficient data sharing and detailed analysis, supporting evidence-based decision-making and enforcement by both entities.

The CCP is a statutory body mandated under Competition Act, 2010, to protect and promote competition in Pakistan's economy by addressing anti-competitive practices, including deceptive marketing practices. Whereas, PFA is a statutory body responsible under Punjab Food Authority Act, 2011, for formulating standards, procedures, processes, and guidelines related to food, including food businesses, food labelling, and food additives, and for enforcing these under the powers vested under PFA Act.

Punjab Food Authority joins hands with CCP to check deceptive marketing

The Competition Commission of Pakistan (CCP) has joined hands with the Punjab Food Authority (PFA) to check deceptive marketing and improve consumer protection.

As per the Memorandum of Understanding (MoU), both sides will enhance cooperation in matters related to food product claims and labelling.

Salman Amin, Member CCP, and M. Asim Javaid, Director General PFA, officiated the signing ceremony at the PFA office.

Salman Amin highlighted how both sides can collaborate under their respective legal frameworks. He emphasised that the Office of Fair Trade and the Marketing Intelligence Unit at CCP play a key role in preventing deceptive marketing and false claims by businesses.

These units ensure that product claims are backed by credible evidence, he said, adding that PFA's technical facilities and established standards will support this effort, benefiting consumers and promoting fair competition.

It was also discussed that PFA's testing facilities would assist CCP in verifying claims made by businesses in the food and beverage industry during legal proceedings.

PFA officials highlighted the Authority's expertise in the technical analysis of food products. They also outlined the formal procedures established by PFA for the approval of food product labels.

The MoU will strengthen both organisations by facilitating collaboration on matters of mutual interest. It aims to promote efficient data sharing and detailed analysis, supporting evidence-based decision-making and enforcement by both entities.

CCP and Punjab Food Authority join Hands to Protect Consumers & ensure fair Competition

The Competition Commission of Pakistan (CCP) has granted approval for the merger between M/s. DWP Engineering Industries (Private) Limited and M/s. Digital World Pakistan (Private) Limited, as per the Scheme of Arrangement.

The CCP conducted a Phase I competition assessment, reviewing the business activities of both entities. DWP Engineering Industries is a private limited company incorporated in Pakistan, specializing in the manufacturing and sale of various interrelated consumer electronics and home appliances. Similarly, Digital World Pakistan is a private limited company engaged in the same line of business.

The CCP's assessment identified the relevant product market as "Consumer Electronics & Home Appliances," with the geographic market being Pakistan. Upon completion of the merger, DWP will be dissolved by Order of the High Court, and Digital World's market share is expected to increase slightly within the relevant market.

The CCP has determined that the proposed transaction will not result in Digital World attaining a dominant position, as defined under Section 2(1)(e) of the Competition Act.

As consumer demand for electronics and appliances continues to grow, this consolidation is expected to enhance operational efficiencies and expand product offerings.

Post-transaction, Digital World's strengthened position is anticipated to foster increased competition, spurring innovation and potentially leading to improved pricing and product quality for consumers.

Furthermore, the merger aligns with Pakistan's broader economic goals by attracting investment in the manufacturing sector, boosting local production, and supporting job creation, thus contributing to economic growth in a key industry.
