CCP to mark 'World Competition Day' today

RECORDER REPORT
ISLAMABAD: The Competition Commission of Pakistan (CCP) is going to mark the 'World Competition Day' today (5th Dec) with the theme, 'Enhancing Economic Efficiency of SMEs' with the resolve to play an active role under its mandate to strengthen and support the small and

medium enterprises through policy and advocacy initiatives. On 5th Dec 2010, the International Network of Civil Society Organization on Competition (INCSOC) announced and proposed the first World Competition Day. Subsequently, each year, the world's competition commu-

nity celebrates 5th Dec as the World Competition Day by holding events, issuing statements and taking other outreach measures with the intention to support consumers and promote fair play in the market. This year's international theme is 'Competition Policy and Access to Healthcare.' The Competition Law of

Pakistan is a pro-business, pro-growth statute and the Commission believes in stimulating economic performance and creating a level playing field by eradicating market distortions and eliminating entry barriers. Competition encourages businesses to compete to continuously look for better ways to satisfy their

consumer base with improved quality, durability, service, and price which come to fruition in innovations. In result, it enhances the economic efficiency of businesses and particularly enables the small businesses to compete and grow.

The SME sector is the backbone of Pakistan's economy and there is still a lot of potential for growth and innovation. The CCP realizes that the SME sector deserves a special focus in the aftermath of the Covid-19 pandemic and its sustenance will depend on the support it gets from the relevant quarters. The CCP encourages all efforts geared at ensuing a sustainable growth of SMEs and will endeavour to contribute under its mandate through issuing policy guidelines and taking advocacy initiatives for their benefit. CCP is working to coordinate with jurisdictions where competition agencies have contributed, directly or indirectly, towards enhancing economic efficiency of SMEs, both in Covid-19 situation and before.
