The MoU aims to enhance bilateral cooperation in the field of competition law and policy, marking a significant milestone in Sino-Pakistani relations, said a press release issued here on Saturday.

Meanwhile, the Competition Commission of Pakistan (CCP) has enforced an order against the All Pakistan Newspapers

Society (APNS), recovering a penalty of Rs 5 million imposed for anti-competitive conduct.

Evacuee Trust Property Board (ETPB) filed a complaint with CCP, wherein it was alleged that Regulations and Circulars formulated by APNS were in violation of section 4 of the Competition Act, 2010, said a press release issued here Saturday.

The CCP's enquiry inter alia established that APNS had imposed restrictive trading conditions, and certain rules, regulations and circulars enforced by APNS were in contravention of the Act.

On 6 June 2018, CCP passed an order and held that APNS

had engaged in anti-competitive activities such as applying unfair trading conditions and imposing dissimilar conditions on equivalent transactions with other trading parties through its circulars, rules, and regulations. CCP recognized APNS's cooperation and compliance-oriented approach as the mitigating factor and imposed a penalty of only Rs 10 million.

The CCP's order also nullified all such circulars, rules, and regulations and directed APNS to formulate new ones and seek exemption from the CCP under Section 5 of the Competition Act. Additionally, the order stipulated that failure to comply

would result in an additional penalty of Rs 25 million and a daily penalty of Rs 100,000. APNS appealed the CCP's order before the Competition Appellate Tribunal (CAT). After a detailed hearing, the Tribunal partially allowed the appeal by reducing the penalty to Rs 5 million.

The CAT further directed APNS to submit its amended circulars, rules, and regulations to the CCP within one month. The Tribunal also held that the additional penalty of Rs 25 million and the daily penalty would not apply if the CCP endorsed the amended rules and regulations within 60 days.
