CCP approves another merger

OUR STAFF REPORTER ISLAMABAD

The Competition Commission of Pakistan (CCP) has approved a merger involving a significant reshuffling of power generation assets. This transaction entails a consortium, mainly comprising textile companies, acquiring a 68.89% stake in Engro Powergen Qadirpur Limited (EPQL), a subsidiary of Engro Energy Limited.

EPQL operates a 217 MW permeate gas-based plant in Qadirpur, Ghotki. Engro Corporation, a key player in Pakistan's energy sector, holds 68.89% stake through Engro Energy Limited. As per the transaction, Engro Energy has entered a share purchase agreement with a consortium of M/s Liberty Power Holding (Pvt) Ltd, M/s Soorty Enterprises (Pvt) Ltd, and M/s Procon Engineering (Pvt) Ltd. Liberty Power Holding fo-

cuses on managing power generation companies within the Liberty Group, Soorty Enterprises specializes in denim manufacturing and sales, and Procon Engineering manufactures automotive parts, non-woven fabrics, and foam products. The consortium also holds stake in the power sector through their associated companies.

. The CCP's Phase I competition assessment identified 'Power Generation' as the relevant market. The analysis confirmed that EPQL's market share is minimal. It will remain unchanged post-transaction will not lead to market dominance. CCP anticipates this approval will enhance resource allocation efficiency in Pakistan's power generation sector, fostering a long term competitive environment. Chairman CCP, Dr. Kabir Ahmed Sidhu, reiterated that the CCP's role is to facilitate both domestic businesses and foreign investors.

CCP gives nod to majority stake acquisition of Engro Powergen Qadirpur

by Staff Report — 17 hours ago in Business. Pakistan

ISLAMABAD – The Competition Commission of Pakistan (CCP) has approved a merger involving a significant reshuffling of power generation assets.

As per the press release issued by the CCP on Monday, this transaction entails a consortium, mainly comprising textile companies, acquiring a 68.89% stake in Engro Powergen Qadirpur Limited (EPQL), a subsidiary of Engro Energy Limited.

EPQL operates a 217 MW permeate gas-based plant in Qadirpur, Ghotki. Engro Corporation, a key player in Pakistan's energy sector, holds 68.89% stake through Engro Energy Limited.

As per the transaction, Engro Energy has entered a share purchase agreement with a consortium of M/s Liberty Power Holding (Pvt) Ltd, M/s Soorty Enterprises (Pvt) Ltd, and M/s Procon Engineering (Pvt) Ltd.

Liberty Power Holding focuses on managing power generation companies within the Liberty Group, Soorty Enterprises specializes in denim manufacturing and sales, and Procon Engineering manufactures automotive parts, non-woven fabrics, and foam products. The consortium also holds stake in the power sector through their associated companies.

The CCP's Phase I competition assessment identified 'Power Generation' as the relevant market. The analysis confirmed that EPQL's market share is minimal. It will remain unchanged post-transaction and will not lead to market dominance.

CCP anticipates this approval will enhance resource allocation efficiency in Pakistan's power generation sector, fostering a long term competitive environment.

Chairman CCP, Dr. Kabir Ahmed Sidhu, reiterated that the CCP's role is to facilitate both domestic businesses and foreign investors.
